## Biography

Elisabetta Listorti is Researcher at the Knowledge Group Government, Health and Not for Profit of SDA Bocconi. Since 2019 she has been part of the Center on Health and Social Care Management (CERGAS).

At SDA Bocconi Elisabetta contributed to numerous research projects, engaging in the economic and organizational evaluation of mainly healthcare pathways using quantitative and qualitative methods. In recent years she has deepened health and social care services for vulnerable populations, in particular undocumented migrants, refugees and homeless people, as well as various clinical areas including assistance during pregnancy and assisted reproductive technology. Elisabetta also collaborates to research projects that focus on chronicity and telemedicine. Her multidisciplinary background allows her to approach health policy issues by combining the perspectives of management, health economics and epidemiology.

She is the author of several articles published in international peer-reviewed journals, including Health Care Management Science and BMC Health Services Research. She is part of the Scientific Direction of the journal Epidemiologia&Prevenzione and of the young AIE group of the Italian Association of Epidemiology, from which she received the Maccacaro Award in 2021.

Elisabetta obtained the Master's Degree in Management Engineering from the Polytechnic of Turin, where she also obtained her PhD in 2018. She also completed the Coripe Master's Degree in Health Economics and Policy in 2014 and the Master's Degree in Epidemiology from the University of Turin in 2021.
